Literally Who, Personal Project

Link : <https://github.com/aliemre2023/literally-who>

I get inspired an internet meme and created that project. The project will show your real persona. I used OpenCV for 'recognizer model' and prepared a GUI with using PySide6(Qt).

Driver Control, Personal Project

Link : <https://github.com/aliemre2023/driver-control>

Due to that project, only authorized person will able to drive the car. Also driver's informations will be saved to be prepared for a dangerous situation. I used Python's OpenCV and PySide6 libraries.
